Quality is in our nature

ADVANCED DECKING PROTECTION Environment

DIRECT APPLICATION ON NEW WOOD

WATER REPELLENT

NO FILM FORMING

Major technical innovation in the protection of all outdoor woodwork: decking, joinery, furniture, fence, garden shed, summerhouse, gate, etc.

It can be applied immediately on new exotic wood after the structure is fitted without chemically preparing the surface.

It penetrates into the wood and is non film forming.

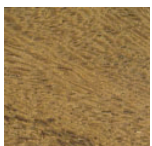

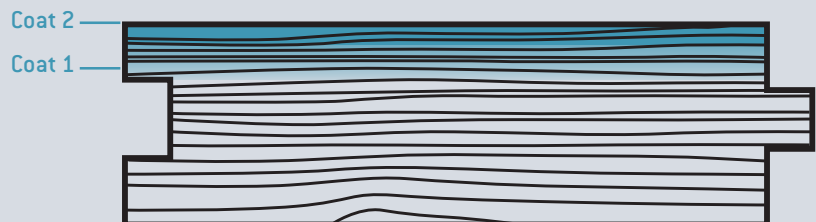

Available in 0.75L and 5L

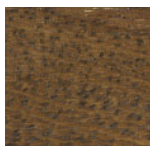

Wood preservation

- Initial impregnation in 2 coats without chemical preparation
- UV resistant
- Easy application without wiping
- Does not peel
- Easy to maintain

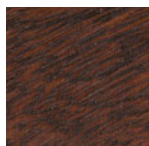

Impregnate = in-depth impregnation of external horizontal wood surfaces

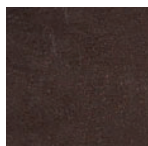

Light wood

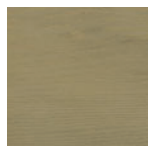

Oak

Exotic wood

Dark wood

Old grey
