

BONA Dust Care Single Product Description

The Bona Dust Care Single is more than a vacuum cleaner. It is a revolution for your working environment. Use it for sanding without dust. Thanks to the two-step cyclonic separation and the unique filter design, dust is collected safely within the Bona Dust Care Single. It's portable so you can take it anywhere on the job site and connect up the hose to your sanding machine. Your working environment will be cleaner and you can work faster. Your customers will also be happier and are willing to pay more for your services.

Field of application: **For dust free sanding of all kinds of wooden floors and parquet floors.**

Features

- Healthier working conditions – in compliance with new regulations.
- Totally sealed system – thanks to a unique seamless bag system, no dust can escape when changing the dust bag.
- Greater customer satisfaction because of sanding without dust and reduced odour.
- Exclusive design from Bona – a unique separation process makes this no ordinary vacuum cleaner.
- Ergonomic – designed to be easy to use and transport.
- Superb end-result after applying finish because no dust is left on the surface of the bare wood
- Made for professional use – robust, high quality machine for flooring contractors.
